This is online book Bamboo Harvester: An Extraordinary Horse's Quest To Save A Civilization -- Volume 1 By Timm Boyle that can be taken its soft documents. It is various with the online book Bamboo Harvester: An Extraordinary Horse's Quest To Save A Civilization -- Volume 1 By Timm Boyle where you can purchase a book then the seller will send the printed book for you. This is the area where you can get this Bamboo Harvester: An Extraordinary Horse's Quest To Save A Civilization -- Volume 1 By Timm Boyle by online as well as after having deal with investing in, you can download Bamboo Harvester: An Extraordinary Horse's Quest To Save A Civilization -- Volume 1 By Timm Boyle by yourself.

BAMBOO HARVESTER: AN EXTRAORDINARY HORSE'S QUEST TO SAVE A CIVILIZATION -- VOLUME 1 BY TIMM BOYLE PDF

During the turbulent Sixties, one of the ways Americans gained comic relief from chilling world events was by tuning in to a CBS sitcom about a talking horse. Young children loved the fact that an animal talked and wondered if their pets would ever speak to them. School-aged kids who understood the horse wasn't actually talking found it fascinating that the stallion's mouth moved so precisely to the words he was "speaking." Adults enjoyed the show's mature humor and appreciated seeing celebrities who appeared occasionally, including Clint Eastwood, Mae West, George Burns and Zsa Zsa Gabor.

Seemingly everyone delighted in the fact that the horse saved all his words for one person: his owner. The duo's "secret" – shared by countless co-conspirators watching the show faithfully each week – enabled this unlikely pair to form a special bond rarely replicated on television. But what if there were much more to the story than any fan of the show could imagine? If the horse, whose real name was Bamboo Harvester, actually did talk, to whom would he have spoken? And from where would he have come? How would his television show have originated and evolved? What kind of adventures would this intelligent, articulate, mischievous, four-legged creature have experienced outside the realm of television that none of his admirers ever witnessed or even heard about?

Bamboo Harvester: An Extraordinary Horse's Quest to Save a Civilization – Volume 1 answers all those questions and many more while wrapping itself in the themes of bravery, sacrifice and redemption. This heartwarming novel tells the story of an alien civilization facing extermination, the courageous efforts of a few determined souls seeking to save future generations, the blind luck of a down-and-out Hollywood producer and a talking horse who bridges the gaps between them all. Make sure you're firmly strapped in the saddle for this wild ride as you gallop from one solar system in the Milky Way galaxy to ours with a destination of Hollywood, California. And that's straight from the horse's mouth.

Straight from the Horse's Mouth

By J. Arthur

Now, here's a wonderful little 99¢ surprise! Bamboo Harvester is just the beginning of the story of a washed up, 1960s era Hollywood sitcom producer's visitation by an alien intelligence in the form of a talking horse – who is, of course, a lot smarter than he is. Emissaries from a dying planet, who are a lot like us (except they have bigger heads and better names), are not above using animals to test the waters on an alien planet, but, in this case, they brought their pet, not so much as a test subject, but because they could not bear to leave him

behind. The horse, unlike his masters, is perfectly identical in appearance to his earthly counterparts, and, once his already human-like intellect is artificially enhanced to facilitate his reconnaissance, he gets the bit in his teeth, so to speak, and takes off on a frolic of his own. This is, I suspect, a little more than the “true story of Mr. Ed.” Anyone who remembers the acerbic, lip-flapping, back-on-the-haunches pronouncements on the human condition by that palomino (whose real name was, in fact, Bamboo Harvester) ought to anticipate that this alien visitor’s behind-the-scenes take and his heretofore unheralded impact on 1960s America is going to be pretty damned funny. Give this one a shot!

I enjoyed Timm's book

By Amazon Customer

I enjoyed Timm's book, found it perfect for the pool or beach because I could pick back up where I was if/when interrupted. At first a little overwhelmed by the number of characters and unusual names, however, soon realized that there were a half dozen or so I really needed to remember in depth. Most outstanding is Timm's satirical style and not-so-masked references to today's politicians and issues we are facing. He is able to throw a jab but not mean-spirited. Looking forward to next book in series.

Oh Wilbur!!! This book is a winner!

By Brett P.

What an interesting tale that sucks you in and doesn't let go! This book is an awesome combination of space travel, mission planning, world governments, and Mr. Ed!!! If you are looking for characters that you can relate to, a story that keeps you wondering what's next, and a great combination of literary styles... this is the book for you!
