BEHOLD A BLACK HORSE: FOUR HORSEMEN OF THE APOCALYPSE BY CHUCK MISSLER PDF

The third of the “Four Horsemen of the Apocalypse” brings inflation and famine on an unprecedented scale.

What is the real cause of inflation?

What are the real causes of famine?

Most famines are the direct results of government’s deliberate decisions. Germany sank into the most severe hyperinflationary period in recorded history after printing 1.3 trillion marks: that translates to about 4 trillion in today’s dollars. Ironically, that is almost exactly the same amount of money the United States government has printed since 2008. What are the implications for us today?

How can one use Bayes’ Theorem in “reverse probability”? (Can you form a hypothesis based on experience, common sense and whatever data are available; then test the hypothesis not by what has happened before, but by what comes after?)

The theorem has proved its worth, such as in 2012 when it was used to successfully predict the outcome of the U.S. presidential election in all 50 states before the final vote counts were available.

Join Dr. Chuck Missler in the Executive Briefing Room of the River Lodge, New Zealand, as he explores the identity of the third of the Four Horsemen of Revelation.

Enlightening, fascinating and eye opening!

By Liz KS

I've always had a bit of an initial struggle with Mr. Missler trying to understand all he says but I eventually come to an understanding. This book is no exception. I have known little about how our banking system was created but Chuck Missler explains it so even I can be enlightened. This is a fascinating book that I had a hard time putting aside to do other things. This is the third book in his series of the four horsemen that I have read and I have enjoyed them all. These books have strengthened my faith and added to my hope in God and His wonderful plan for His children. Thank you Mr Missler for taking the time to share your knowledge with us. I am recommending this book and the whole series!
