Blood Prints of the Gods is an enlightening book of outstanding simplicity. Learn today from historical findings and esoteric doctrines how aliens created the first human Neanderthal, a creature the ancient Sumerians called "Adamu". Learn how this Neanderthal alien bloodline became the sacred blood line of the ancient Sumerians; a bloodline that is worshiped and adored in secret societies to this day.

Find out how this same bloodline has been ruling the world, since the days of ancient Babylon and the Egyptian pharaohs.

See how the bloodline reigned over Alexander's Greece and how it reigns today through the royal crown of the British Monarchy.

The author takes the reader on a journey through history, beginning hundreds of thousands of years ago and carrying you to the present, where the bloodline conspires to control the entire planet. Blood Prints of the Gods details and investigates discussions ranging from archaeological discoveries to genetic testing; from the Habiru Hebrews and the ancient Amarna Letters to anatomical observations and historical quotes from Flavius Josephus, Manetho, and others.

Shifty kindle/amazon

By Amazon Customer

My one star review isn't my reflection of the book because I was never allowed to read the book. Amazon and/or kindle took my money, yet NEVER offered the book in a readable format for my computer. Neither Amazon or kindle will EVER receive another penny from me because of their shady dealings, so to some degree the purchase was worth the 6-7 dollars.

Interesting

By Pamela j. hall

Nice concept and very weird scenario but the reach is a little high. The Hebrew is made out to be the bad guy in this scenario when we all know that has been done before and was called the holocaust.
