Great sub for ISBN: 9780073376905

By C. Yang

I bought this book because I did not want to purchase the original one (ISBN 13: 9780073376905) at full price of over \$200. This may be the "International Student Edition for use outside of the U.S.", but it worked perfectly for my DAC1 (Information Systems Management) course. After Chapter 20, it starts naming the Chapters by it's Plug-In title but if you look at the subtitle, it would still matches the regular Chapter names. I

am glad that I spent a little over \$40 on this book than buying it at full price of the original textbook.0 of 0 people found the following review helpful.
