Laura is surprised to find that her beloved stuffed teddy bears are much kinkier than she ever imagined!

Laura just had her 18th birthday making her a full-fledged adult, but there's one thing she's never been comfortable getting rid of – her favorite teddy bears. Her relationship with one of the larger bears began when she started hearing a fapping coming from the darkness of her closet. With a little bit of investigation she quickly learns that the bear has much more to offer than plushie comfort. As she wiggles and grinds on top of her furry friend she awakens a desire that she never knew could exist. Now that her furry friends have taught her new and unique pleasures she can't get enough. In fact, she's so hungry for the hardness between his furry legs that she ends up late for her first day of work. Her pervert boss decides she can keep her job only if she agrees to bend her tight young body over his desk. She agrees but quickly learns that her Teddy at home isn't so pleased to be sharing her with someone else – someone human. This possessive bear wants to be the only one to fill her holes with his warm stuffing.

short story

By Kindle Customer

In the synopsis for this book it says it can be read as a stand alone but it really can't you feel like you are already coming to the book at least part way. This book is ok if you haven't read the first one but the story is short which makes it feel kind of rushed. Over all there are a lot of sexual scenes not a lot of story line to it. so if you are looking for erotic book with nothing else then this is the book for you.

This is a fun and really quick read

By Naughty Book Snitch

This is a fun and really quick read. There are a few different things going on in this one. You have sex with your favorite teddy bear and then dubious consent with your boss to save your job and then sex with your favorite teddy bear again. I enjoyed it and will read the next one.
