Newly minted in the Sisterhood, Jess Parker thought she had it all: a stunning makeover, a date with dream catch Ryan Steele, and fellow Cindys dedicated to helping her defeat the Wickeds—taking down her nemesis, Lexy, along the way. If only she could bottle this moment so nothing ever changed.

Only fairy tales don't work that way. The Cindys have bigger plans for Jess's ultimate life makeover than she ever dreamed. Or wanted. Jess also suspects there's more beneath Ryan's charming exterior than she bargained for.

So good! This episode takes the series to a new level

By Chance Encounters

I tore through this episode of The Cinderella Society after thoroughly enjoying episode 1 - and this one was even better. Jess is faced with the reality of her new position within in The Cindys, and there's so much she

doesn't know yet about the bigger picture that she's frustrated. What I love is that her uncertainty doesn't keep her from standing her ground and doing what she believes is right. She may not always choose wisely, but she doesn't play it safe, not when someone she cares about can be helped. And in the end, you can really see her making decisions from a place of strength. Her inner conflict felt very real, and I ached for her and cheered for her at equal turns (especially the scenes with her would-be Prince Charming, which alternated between being wonderfully fun and then filled with all the angst that any first crush would be - brilliant!). I'm so looking forward to the next installment!

The original book is one of my favourite YAs!

Spoilers for episode 1 of The Cinderella Society.

In the second episode of Kay Cassidy's re-released *The Cinderella Society*, we get a lot more into the Wickeds, the nasty girl group that works to dominate as many people as possible. Jess has to reconcile her own terror and self-esteem issues about becoming the new Cinderella Society leader, and learn more about their fight against bullies...all while trying to learn to be a Cindy, work her job, and go on her first dates with Ryan Steele, the crush of her dreams.

Discussions of how painful and frightening bullying and targeting can be, how to help girls stand on their own two feet, and how high school lunchtime can be terrifying are not out of place in this post-*It Gets Better*/Demi Lovato world, and I liked that part just as much as in the original. Jess also has some hard choices to face when she discovers that the Cindys might have her back – but only to a point. Additions include more about personality (not just image) in the *Cinderella Makeover Manual*, which really focuses on how to create your best self, inside and out. I loved that part of it, and I'm looking forward to seeing how it changes episode 3 of this series. Other additions include continuing the faith and religion themes and changes in some of the names of the organizations. Deletions I didn't love were some of the more romance-y bits. While this version kept most of the Ryan-Jess romance in tact, I missed the swooniness of Ryan and Jess' kisses. This takes things back to a G rating instead of PG, and I was disappointed to see the story scrubbed cleaner.

Overall, I'm still looking forward to continuing this new version of one of my favourite stories, but I do miss the original. That said, I think it will be interesting to see what Cassidy does with the final (and new) episode of these novellas.
