This hilarious, irreverent, and profoundly honest memoir explores our cultural obsession with social media and dares to ask: Who is the real you, and what is the story you tell others?

At age 26 Dave Cicirelli found himself at a crossroads. While his friends on Facebook appeared to have lives of nonstop accomplishments, his early adulthood felt disappointingly routine. So one October morning, Dave announced on Facebook that he was dropping everything and heading west. Many thought him brave - or crazy.

No one guessed he was lying. "Fake Dave" set off on a wild adventure, toilet papering an Amish horse and buggy, freight hopping with a farmer's daughter, and being kidnapped by a religious cult. But the online prank quickly became a social experiment. People began connecting over his journey, and some were inspired to change their own lives. But as Fake Dave's popularity grew, the real Dave became increasingly isolated, struggling with the implications of his secret.

Clever, funny, and surprisingly candid, Fakebook is a true memoir of our digital age. It explores what the old ideas of reputation and relationships mean in our new world of constant connection and ultimately asks: How do you draw the line between your virtual self and who you really are? And can you discover yourself on a journey that never took place?

Light and funny, with plenty of points to consider at a deeper level

By Monika

I've been using computers socially since 1992, chatting on and sysopping local dial-up BBSes (ahhh the good ol' days!). We definitely had our share of people faking details of their lives, and because of that I think I've always looked at online personas with an ultra-skeptical eye. I read the notes and looked at the photos Dave Cicirelli posted and thought, "Really? People believed that?!" And inwardly, I scoffed at them. But then I reminded myself: Facebook is a different sort of community from the old BBSes and modern day message boards. If I were truly honest with myself, how much would I be willing to believe if someone I already knew in "real life," a friend, was posting fake details about his/her life? Would I recognize the embellished stories? Would I spot the Photoshopped images and cry foul? Or would I rationalize away any suspicions, because I "know" (or a friend knows) this person?

Questions like this are exactly what Cicirelli ends up exploring in his wild and crazy 6-month hoax. He ponders the way friendships have changed since Facebook, especially for younger adults, for whom it has always been a presence. Cicirelli delves into these ideas as they surface during the course of his experiment. He is never once preachy, and he's quick to acknowledge when he's made assumptions or snap judgments. Best of all, unlike so many that have contemplated the impact of social media on our relationships, Cicirelli offers a balanced and hopeful outlook.

Cicirelli maintains a relaxed, conversational style throughout. His narrative is interspersed with clips from his "Fakebook" wall and accompanying photos. There is a mystery that pops up early on, and the solution to that was completely unexpected! I actually searched back through the book to see if I should have known, if I'd missed something.

Fakebook is light and funny, with plenty of points to consider at a deeper level. I thoroughly enjoyed reading it, and will be mulling it over for weeks to come.

I received a copy of this book from the publisher via NetGalley in exchange for an honest review. I did not receive any other compensation for this review.

Fakebook True Lies

By JOANNE CATHERINE

I enjoyed Fakebook. Dave Cicirelli is a very good writer and I found the book hard to put down. You need to know that I am 54 years old and social media is not important OR interesting to me. I read the book (on my Kindle, actually) because the premise sounded interesting. And like I said, I really enjoyed reading it. I think it's a compliment to any writer (slash artistic creator) when the person experiencing the work takes time out to think about it outside of the time spent experiencing it. As a 54 year old, I didn't have to be told that Fakebook was, well, fake. As an old fogey, I've seen enough to know when the wool is being pulled over my eyes. Now, having said this, when I was in my 20s, I went out a few times with a guy who told me he and a friend had stolen a small plane and taken it for a joy ride. I was sort of incredulous but, still...maybe...? When he blew off a date with me and I finally saw him a few days later, he said that his cat had stolen his wallet and he lost track of time looking for it. Hmm...really? Your CAT? Maybe if it had been his dog...So, I think Fakebook worked for the audience it was addressed to, since they are still naïve and still want to believe in magic. Santa doesn't exist, but Dave Cicirelli does...

\*just\* compelling enough to get us through a round trip to Wi and back. Written by someone who grew up bridging the prehistoric and post historic technology explosion so those archaic references like AIM were nostalgic.
