Be Confident

By Cindy Smith

To be honest, I was quite skeptical at the beginning since French phonetics isn't the easiest one, and I was wondering how reading can help me to speak the language properly. I mean, all the nasal sounds, silent letters, and knowing where to stress! I had already passed the beginner's stage in French, but still wasn't confident in speaking but this book helped me in getting confident and feel like a native while speaking french.

Best for intermediate learners

By Janeo Garibaldi

I personally think this is a more personal yet immersive approach to mastering a language. After the basic language lessons, reading stories in French is a way to fortify the lessons learned. It does require a basic understanding of the foreign language, so I recommend this book as an auxiliary study material. It is also nice to have short stories like these to avoid overloading the learner with so much information in one sitting.
