Simple yet profound

By J Garland McLellan

If you could give your children, or any other loved ones, some simple advice, what would you say?

This book started life as the outline for a speech on the 21st and 18th birthday celebrations of the authors sons. Luckily for us readers, it grew from there.

The book sets out the author's recipe for a successful and happy life. It isn't rocket science. David is a master of simple statements and clear insights and his book is much the same as hearing him speak. The difference is that the book is small and portable and full of practical examples that you can use daily as you live your life.

The book is split into chapters that address different aspects of the way in which David approaches life. Cumulatively they provide a step by step guide to making better decisions and thus generating happier outcomes on a more consistent basis than most of us manage.

There are some exercises that can be practised to build confidence in the ways of thinking that the book suggests. These help to clarify decisions and can be applied to personal or business issues with equal success.

The book is a relaxed read. It uses few long words, little jargon and simple syntax. David managed to avoid quoting from his academic sources (of which he has many) or theorising. Instead he has gone a straightforward and matter of fact exposition of the principles to which he adheres and which have served him well. I could hear his voice as I read his words and, even if you have never met him, I am sure you will

hear it also.

This is a simple book with a deep and long lasting impact. Read it with respect and it will serve you well.

* Julie Garland McLellan is a professional non-executive director, board and governance consultant and mentor. She is the author of "Dilemmas, Dilemmas: practical case studies for company directors', `Dilemmas, Dilemmas II; more practical case studies for company directors', `Presenting to Boards; practical skills for corporate presentations', "The Director's Dilemma", "All Above Board: Great Governance for the Government Sector" and numerous articles on corporate strategy and governance.

OK..

By The Least of These

I found this book just OK. No big WOW factor. That said, it is always helpful to remember, to review the things we have seen and heard over the years to refresh, renew, and rededicate ourselves to DOING them!

9 Inescapable Truths to Happiness - Try It and See For Yourself!

By Dr Yvonne Sum

Intentionomics gives us a blueprint of how we can choose to fulfil our bigger WHY of existence through happiness and prosperity. The 9 Inescapable Truths show us how our intention can impact others in a positive way. They are no secret and seem like common sense. It is only in practising them that the true revelation happens. Funny how life skills essentials like these seem so simple to understand and yet so few of us live them! David Penglase allows us a peek into his life as he discovers and navigates through the power of his own intentional life. Why not journey through Intentionomics and explore how you too can gift yourself a flourishing life of intentional choices?
