INTRODUCING SOCIOLINGUISTICS, 2ND EDITION BY MIRIAM MEYERHOFF PDF

This second edition of Miriam Meyerhoff's highly successful textbook is supported by the Routledge Sociolinguistics Reader and online resources common to both books. It provides a solid, up-to-date appreciation of the interdisciplinary nature of the field covering foundation issues, recent advances and current debates. It presents familiar or classic data in new ways, and supplements the familiar with fresh examples from a wide range of languages and social settings. It clearly explains the patterns and systems that underlie language variation in use, as well as the ways in which alternations between different language varieties index personal style, social power and national identity.

New features of the second edition:

- a wider range of approaches to politeness theory incorporating an international range of research
- expanded sections on multi-lingualism and code-switching, social class, dialect contact and tracking change over time
- linkage to the new Routledge Sociolinguistics Reader which can be used alongside this textbook, allowing students to supplement and build on material covered in the textbook.
- a shared website serving both Reader and Textbook which includes web- and video-links, interactive exercises and an expanded online glossary at: www.routledge.com/textbooks/meyerhoff
- a refreshed text design to assist navigation through textbook and reader.

Each chapter includes exercises that enable readers to engage critically with the text, break-out boxes making connections between sociolinguistics and linguistic or social theory, and brief, lively add-ons guaranteed to make the book a memorable and enjoyable read. With a full glossary of terms and suggestions for further reading, this text gives students all the tools they need for an excellent command of sociolinguistics.

The Kindle Version did not properly format the text correctly ...

By Will

The Kindle Version did not properly format the text correctly. Whenever there is a text box regarding a side note (usually at the bottom or top of the page), Kindle would insert it improperly between the text (especially between sentences), causing much confusion when reading the text. The actual text includes formatting (such as text box borders) that is not available on the Kindle version. If I learned anything, it's to never buy a textbook for Kindle. Get an actual PDF or physical copy.

but I did not enjoy this text

By AARON BEASLEY

Perhaps my rating is due to the fact that this was the main course text for my doctoral sociolinguistics class, but I did not enjoy this text. This would be a good introductory text for an undergrad or masters course, but certainly not for phd level work. One positive: it is highly skimmable.

Wonderful

By Dia Sotiropoulou

The title of this review pretty much summarizes it. Assumes the competency of the reader enough to be fairly technical, but does not go over his/her head with unnecessary academic jargon.
