I was hoping for a lot more

By Nor Cal Steve

This is an extended magazine article, not quite a little book, if you ask me. Very small samples of the artist's work and from my point, not much all that inspiring. It's clear we are not in a new golden age of hand lettering. The best examples of people influenced by past masters but from a technique standpoint, they fall very short.

Sweet little book

By Debbie Sweren

Chock full of great photos of lettering with a little info about the artist and projects shown. If you are looking for a How-to, this is not it. However, if you are looking for some eye candy and inspiration you will find that here.

Lots of Inspiration

By Sharon L. Faulk

This is a great little books full of Inspiration and Eye Candy. It makes you want to pull out some paper and pencils and get to work. The only problem I have with the book is the type font. It is too small and light for us readers over 40 years old.
