Superlative insight into this superlative combat unit

By Maggot

I had seen a documentary or two over the decades about the Long Range Desert Group (LRDG) but I never fully appreciated their contributions to the enhancement and furtherance of the Special Air Service (SAS) and Special Boat Service! I also had no real appreciation for their efforts in Albania and Yugoslavia! Even more remarkably, much of this was accomplished by New Zealanders and Rhodesians. The author writes this book from a "memoirs" perspective and does a very good job. Anyone who fails to look up to the LRDG as equals to the SAS or SBS within their mission set fails to appreciate just what the LRDG did for the British in WW II. Also, any US Special Forces student needing to better gain an appreciation for school exercise "Robin Sage" needs to read the latter half of this book...very clear and unmistakable linkage to what the LRDG went through in Yugoslavia and Albania. The one obvious shortcoming was a lack of maps! While the actual soldiers often operated without meaningful maps, to follow it I had to use Google Earth and then I could better appreciate the distances and depths behind enemy lines.

An excellent well written book

By Charles penney

A tribute to the men, from the commonwealth countries, of the LRDG, in harsh desert conditions.

An excellent well written book.

Well written biography

By Dr Marcus

This is a fascinating read, written as it is by a former LRDG patrol leader. Even though it is in the shape of a chronological unit story (rather than a more theoretically induced analysis) it is a must read for anyone interested in early special operations forces and the LRDG. Contains information about cooperation between the LRDG and the SAS. Recommended.
