Reviews are right!

FYI, my copy contained Book One and Book Two all in one book (flip book over and you'll see Book Two). I bought this book solely on the reviews posted here and while buying off of reviews hasn't always worked for me, they were spot on with this book! I have been in retail sales for nearly 20 years and will admit that I have learned the way many salespeople learn and hone their techniques - trial and error. I have had some amazing years in retail, but as times have changed so has the windfall of glory and money. I realized I needed to do something about it and thought I'd try this book.

This is my first book by John Lawhon and all I can say is WOW! I can't believe how much I was missing in "selling". My techniques I had perfected over the years of professionalism, expert knowledge of product, caring of fulfilling the customer's needs really was just a glorified "order taker". This book describes not only proper techniques, but it does it by explaining how and why you should use these techniques. It explains the emotions of the buyer and even the emotions of the salesperson. No tricks or pushy sales tactics here. It is amazing and anyone who doesn't at least pick up this book to see what it's about, is doing themselves an

injustice. I am already seeing improvements in my sales and I am only half way through the book. In my opinion, the first two chapters are worth the price of the book alone. **HIGHLY RECOMMENDED!**
