What is sexual chemistry? It is the process of arousing a member of the opposite sex. It is also how men and women react to each other in everyday life. Sexual chemistry is a key factor in why a relationship succeeds or fails.

Sexual Chemistry provides a model for men to increase their sex appeal. Rom Wills describes the four sexual categories of men. He explains the stages of a woman's orgasm and what it takes to satisfy women sexually. Rom provides a better understanding of "bad boys" and "pretty boys" and the secret of their appeal to women.

This is neither a pick-up book, nor a book for game players. Sexual Chemistry is for people looking for positive and satisfying relationships. Rom Wills opens a new chapter in the discussion of sexuality.

A Cut Above

By A Customer

"Sexual Chemistry" goes beyond pick-up lines, NLP, and pheromones. This book is beyond everything I have read or tried before. It gets down to the essence of male-female interactions and provides methods for men to increase their natural sex appeal. I've applied the methods in the book and they really helped me.

Very good follow-up

By Dexter Patrick

Sexual Chemistry is a very good follow-up to Nice Guys and Players. Rom Wills expands on concepts introduced in his first book such as the categories of different men and how ladies respond to them. I think the best thing he did was to provide ways for a man to develop his sex appeal. To me this book is along the lines of the Kama Sutra or the Tao of Sexology but in a more down to earth, everyday life type of language.

An okay read

By Normalization

Well I did think this book was pretty good, it just didn't have the same "bite" as his first book did. Also, he

used a of excerpts from his previous book, and this kinda seemed like a way to just make this book longer and take up space. I think the chapter about sex wasn't necessary. While granted he gave some good advice, the Nice Guy and Gamesman has trouble getting a woman to think of him sexually period, so first things first. I do like the chapter he devoted to "Mr Goodbar". The most positive think about this book is that it tells you to focus on enhancing your charisma from the inside first, and then getting yourself together mentally.
