This book, and it's author, matter a lot!!!

By evelyn

I really love this book and highly recommend it because it's bursting with spiritual insights about the meaning of life and higher states of consciousness, among other things that are important and interest me. I didn't know the author before reading but I thank the universe that I found him. It was the first time in a long time where I felt an immediate connection with the author and what he was saying! Anyway, in my opinion, do not believe the title, this book MATTERS A LOT!!
