Whatever You Do is book two in Try again series by Stephanie Smith. Well Stephanie grabs you pulls you into the book. It is sweet, sexy and very passionate. The characters are unique and they become a part of you.

We meet Brook and Saxon in book one, which was an emotional story about loss, grief, and letting the past go and learning how to love again. In addition, they are going strong in this book.

Harper worked at Argo the company that Brook and Saxon use to own as a receptionist. She is fired from her job and decides to go to her boyfriend's apartment since it was close by when she gets there she is in for a shock he is in bed with someone else. She is upset and does not want to go home so she goes and visits Brook who offers her a job and she accepts.

Harper then decides to try on line dating since all the men she meets or dates just wants to sleep with her and everyone else. She meets her first two dates at a Cafe where she runs into Tate. She thinks Tate is a player and just like all the guys, she dated before.

Will Harper find a keeper instead of a player? Is Tate an actual player?

Tate Washington is a sexy tattooed man that was not looking to meet anyone. He was still dealing with the consequences of his one serious relationship; all he's interested in is revamping his family's behind-the-times café. He never thought he would see the beautiful secretary he nicknamed Daisy, but then she walked into his life again to use his café for her dates from her on line dating.

Can he convince her to go out with him and maybe have a life with him?

I know that Harper was hurt in the past and had trust issues but sometimes I just wanted to pull her hair out and scream at her she is a very Independent and strong willed woman who just needed to take a breather and see what was right in front of her.

I highly recommend this book but please read the first one in this series so you will be caught up on all the characters.

thoughts on whatever you do

By hello-booklover

This had some hysterical moments. Each date that Harper had were so funny they will have you crying from laughing so hard. the one good one was when she finally realizes Tate is what she wants even after fighting it completely.

Tate is the sweet kind guy who didn't deserve to be judged the way Harper did. this was the one thing about Harper that got to me-she judged Tate based on her past relationships and than continued to do so even after they got together. She never quite trusted him. Never quite thought he was true to his word and loved her. She almost ruins a good thing for her pride and wanting to be stuck in her past. Tate never gave her a reason not to believe in him. Harper for half the book is what she claims she isn't-she is judging Tate without giving him a chance and justifying it because of her past experiences saying he is just like the others.

You feel for Tate because he sits there and watches Harper continuously go on these horrible dates and supporting her along the way. Even after he thinks she finally will give him a chance she goes on a date and that hurts Tate but he being the kind and sweet guy he is understands due to her past and accepts what she did. Even after instead of listening to him as to why he was having lunch with a woman she ran away he waited for her and explained. Even after she did what she did at the end he understood. This is a sweet understanding guy. harper in some ways deserved him but others not because of how she continuously lumped him with her past.

This is the story of harper letting go of the past and finding love.

A fun sweet romance that will have you laughing at her online date meets, smiling at tate and his romantic and sweet understanding ways.

Received arc in exchange for a honest review.

Bad Luck

By Tatia White

4.5 stars

If you were to look up the definition of BAD LUCK in the dictionary, next to it you would find a picture of Harper. She's got a rock chick type of vibe to her from her short black bob to her eccentric, yet fashionable clothing choices. Harper is fiercely loyal to her friends and loved ones, but she's also pretty sensitive. And she has the worst luck ever.

In the beginning of Whatever You Do, I did get a little confused. We went from her working with her closest friends at a company that her friend owned to the next chapter her getting fired from said company by someone else. It is all eventually explained, but I think it should have been done in the beginning.

Now let me get to the mysterious yet sinful Tate. We meet him in the very beginning when he delivers lunch to Harper and her friends. He's immediately drawn to her. He's very flirtatious and ca come across as a playboy, but once you get to know him, he'll win you over with his endless charm and boyish good looks.

Both he and Harper have been hurt in the past and try to keep themselves guarded. Tate wants nothing more than for Harper to give him a chance, but she's reluctant. After a series of horrible online dating attempts, she finally relents, hoping this isn't something that will ruin the great friendship that has formed.

I loved this story once I got past the beginning. Some of these guys that Harper went on dates with truly just amazed me. They were horrible. Once she gave Tate a chance, she realized what she was missing. I just hate that it was so hard for her to trust him. I know her past would make anyone a little jaded, but sometimes you just have to take life by the horns and hold on.

All in all, I loved the chemistry between them and how he wasn't willing to take no for an answer and let her get away. This is truly a romance that will have you smiling and happy that these two were happy and willing to give love another chance.
